

ANGELINA LADERA REPORTS

“WORKER AND HUMAN RIGHTS

IN THE PHILIPINES

History and Perspectives”

**CHAIRPERSON AND
ORGANISER
WORKERS
ALLIANCE
REGION 3 LUZON**

Angelina will speak in Melbourne, Sydney and Perth.

She is a very experienced union and human rights organiser. Her report will be an opportunity for union and community activists in Australia to reflect upon the directions which global capital and governments are taking in response to the emerging economic and ecological crisis.

Workchoices and the Building Construction Industry Improvement Act have their global variations, often enforced more brutally than in Australia.

The very same corporate players are using the same sorts of legal frameworks to disempower workers, criminalising many of the democratic functions of their union organisations:

Angelina affords us the opportunity to view a possible future and to discuss with her methods and approaches which unions and communities can use to strengthen their union organisations and the democracy they function within.
